## INTERNSHIP

### Internship in python fullstack developer

Undergoing six month internship in python and its framework and web development skills from Scope India Trivandrum

### Workshop on EMBEDDED SYSTEM

Participated 2 day workshop on EMBEDDED SYSTEM AND IOT at TKM Collage of Engineering, Kollam

## PROJECT

### Intelligent vehicle system for the detection of health conditions and its rescue measures

A person driving a vehicle needs to be healthy and be able to concentrate on driving. Safety can be ensured by continuous monitoring of some of the health parameters of the driver and feedback fed into the control system to alert or take possible measures to avoid unsafe driving causing accidents and damages. A driver's body parameters like breath rate, heart rate and other critical datas affecting the health conditions can be collected and monitored
